Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant's representative, Lavar Oldham (53,409), gave authorization for an examiner's amendment in a telephone interview at 5:30pm on August 16, 2006. If the claims are otherwise found in condition for allowance, authorization was given to amend claim 20 as follows:

Insert the words "on physical storage media" on line 7 after the words "computer-executable instructions".

This amendment would be necessary because the specification (paragraph [0025]) defines a computer-readable medium to include a network or signal. However, paragraph [0024] describes types of physical storage media upon which a program can be tangibly embodied. This particular amendment would be made in light of the Interim Guidelines for Subject Matter Eligibility. .
